VALET PARKING PROVIDED

para los niños  
for the children

Our model fosters pathways to success through excellence in education, powerful families, and strong communities for children and youth to thrive.

### EXCELLENT EDUCATION

Our schools and youth centers offer high-quality education and wraparound support to educate the whole child, from 6 weeks to 24 years old. Using an inquiry-based approach with social-emotional integration we nurture a child's healthy academic, physical, and social-emotional development.

### POWERFUL FAMILIES

We partner with parents to disrupt generational poverty and ensure students thrive. By providing opportunities to build strengths in leadership, stress management, and education, plus offering counseling and clinical support - our families are empowered to be self-sufficient.

### STRONG COMMUNITIES

We are active in our communities to connect those in need with education and resources to succeed. We have strategic partnerships with dozens of agencies across LA to build trust and give voice to diverse perspectives.
